## Dickson France Area+ Outdoor Fabrics

Dickson's Area+ Collection is an innovative collection that breathes new life into Pergolas. The Area+ Expansion fabric has a mat, textile look. It is the first solution dyed acrylic fabric which is completely water proof and with its naturally smooth surface helps fight pollution and dirt. Systems PergoShades can be made with a vast array of colors and patterns from the Area+ Expansion range. Patterns, weaves and hues that mix and match beautifully enable decorators to design unique, luxurious settings. The Area+ Sunworker Cristal fabric is a smartly designed mesh to let natural light trickle in and at the same time a clear coating makes it waterproof. Sunworker cristal controls the light and heat that would enter in, at the same time making the Pergoluxe or Skyshade System completely weatherproof.

Soft furnishing fabrics of solution dyed acrylic can be used to create sheer or solid curtain systems which are fade resistant and cooling.

The unique expertise of experienced researchers has enables to balance optimum thermal, visual and sound comfort with weatherproofing, dimensional stability and durability.

## Dickson France PVC Structural Fabrics

Dickson is a renowned name in the Manufacturing of Outdoor solar shading fabrics for a plethora of Solar shading products. Dickson Coatings France is their specialised division manufacturing some of the best Structural PVC coated fabrics designed and engineered to withstand the harshest of weather conditions.

We use Dickson PVC fabrics for both our PergoShades & Skylite Systems since we believe that your first choice should be the best. These Coated fabrics filter out unpleasant UVA and UVB rays, protecting your skin and eyes. They control the brightness to comfortable levels or you could use a completely Blackout option, limit heat build up providing a cool and comfortable environment. These fabrics are flame retardant to make you safe.

## Climate Control

### PergoLuxe Flexible Spaces With Fabric Walls & Roll Ups

Create a completely weather proof Pergola with this very useful and easy to use Add-On. A fixed Fabric wall with Clear sheets for windows or an automated Roll Up fabric system that can be rolled up or down completely using a remote control.

### Premium PergoLuxe With Sliding & Stacking Glass Systems

The Pergoluxe Pergola can be made into your most luxurious space Add on a Sliding or Stacking UPVC Glass doors which can be completely opened or closed as desired. Create a luxurious lounge or Fine dining area which can be an open area or a beautiful room at different times of the day.

### Air-Condition Your PergoLuxe

Your Pergoluxe is probably going to be the most Versatile areas of your home, office or restaurant. Once you have added on a Fabric roll up system or UPVC Glass system, air conditioning your Pergoluxe for the hot summer months is just a simple addition to enjoy your space.

### PergoLuxe Misting Systems

Your Pergoluxe has been designed to provide you comfort from Solar heat, glare & UV, but sometimes it might get really hot and you might still want to be out in the open. These misting systems would provide you the solution to enjoy the outdoors with a cool mist cooling your entire space.

### Special Infrared Heating System For Your PergoLuxe

We can provide you with specially designed Infrared heaters installed inside your Pergoluxe to keep you warm during the winter months. These heaters are designed to give you the same kind of warmth as the sun does. Use them with the sides open during mild chill or cosy up in a warm room when it gets really cold.

## Sunsetter Coated Fabrics

The Sunsetter Coated Fabric range is a mid-range coated PVC fabric range manufactured to be strong and durable in the Outdoors. It is completely waterproof and the translucent nature of the fabric allows natural light to filter in taking the glare out of the bright sun rays. Sunsetter coated fabrics will provide your PergoShade or Skylite System a weatherproof retractable roof for all seasons and climatic conditions.
